

Letters from Homeowners

Regarding Water Conservation

It was reported in the Remington Review that they were discussing water conservation in regards to the snow pack. As a person who believes in conservation I'm always in favor of protecting this valuable resource. What struck me was their discussion on the snow pack. I always thought our water was from aquifers. Aquifers rely on rain percolating through the ground for recharge, and it sure has rain this year.

On May 15, I went to our local water district and found out that they do get 2,000,000 gallons a day from surface water. I asked what % is this to the overall daily consumption? They replied that its insignificant. Furthermore the Remington Community doesn't received a drop of this surface water. He also stated that our aquifers are in great shape. So go ahead and keep our community green but water smartly.

Michael Franklin, Div 1

Remington Riders

Our ride to Elbe on the 18th had beautiful weather and light traffic on some of the coolest motorcycling roads anywhere. The steam train rides started on Memorial Day weekend and continue through the summer so a revisit is a must. Robyn and I will be touring Montana the first two weeks of June so the 15th is the earliest my posterior will be ready for our gathering. Lets do the Yakima loop via Hwy 410. See you there.

Our gatherings normally meet the 2nd Sunday of each month at 9:00am at the Bakery in Black Diamond.

Suggestion and comments to:

May General Meeting Minutes

(Continued from page 1)

with the meeting Agenda. There were questions regarding the Operating Ending Balance/ Total Income/ Reserve Study Ending Balance.

Speed Study Overview

David L. Paul, Senior Traffic Engineer with King County gave a presentation on speeding and road safety on 202nd at the January Board meeting. The Board had asked for help but had not received much response. At the General meeting it was asked that the Speed Study info be reprinted in the newsletter and put on the website. The Board also explained the new policy regarding road improvements. The policy states: Any neighborhood petitions for road improvements needs to be submitted to the Board for Board approval to allow for continuity through out the development. It was also suggested that we should watch the impact of the new restaurant at Druids Glen before making improvements/ changes.

Planning to Paint Your House Soon?

This time of year homeowners thoughts turn to painting. If your house siding and trim are looking a little sad and the primer is beginning to show through, perhaps it is time to bite the bullet and apply a fresh coat of paint. Remington homeowners are among those that have the very highest pride of ownership and the way we keep the neighborhood looking neat certainly reflects that.

This is a reminder that your CC&Rs require written approval for exterior color changes. Your Architectural Control Committee has been assigned by the Board of Directors to review and approve all such changes. Painting guidelines and Project Approval forms are available on the new Remington web page. Check it out for the latest information or contact ACC chairman Richard Green at 253-630-1426.
